ORGANIZERS**REGISTRATION AND ABSTRACT SUBMISSION**

To take part in the school-conference you should register online on the school-conference website <http://catconf.tsu.ru/>. Potential oral and poster contributors are invited to submit an abstract via the website by ~~February 29~~ **March 21, 2020**. The one-page abstract should be prepared in English, a template for abstract preparation is available on the website.

KEY DATES

December 20, 2019 - Invitation for abstract submission

~~February 29, 2020~~ - Deadline for abstract submission

The deadline has been extended to March 21, 2020

June 15, 2020 - Notification of acceptance

September 5, 2020 - Distribution of preliminary Conference program

September 15, 2020 – Deadline for the registration

October 6 - 10, 2020 - Working days

The 6th International Scientific School-Conference for Young Scientists

CATALYSIS: from Science to Industry

October 6 - 10, 2020, Tomsk, Russia

INVITATION

Dear colleagues,

We are glad to invite you to participate in **the 6th International School-Conference for Young Scientists "Catalysis: from Science to Industry"** to be held on October 6 - 10, 2020 on the basis of Tomsk State University, Tomsk, Russia.

The school-conference became a regular event (held in 2011, 2012, 2014, 2016, 2018) organized by Tomsk State University (TSU) on the basis of the Laboratory of Catalytic Research. The conference is held in order to bring together young scientists and specialists in the field of catalysis and related sciences to disseminate advanced scientific and practical experience, to strengthen relations between catalytic schools in Russia and abroad as well as to form a scientific culture of young researchers.

The theme of the conference covers modern trends in the field of fundamental and applied catalysis featuring the basics of catalyst preparation and production, mechanisms, kinetics and modeling of chemical reactions, promising catalytic processes and application of catalytic processes in industry. Young scientists will be given a great opportunity to become familiar with research works of leading scientists, present and discuss their research results, define promising trends of scientific research, and establish collaborative relations.

For companies

The companies and organizations dealing with catalyst production or manufacturing of equipment for catalyst preparation or investigation are invited to take part in the School-Conference. The companies will be able to give a company presentation, participate in equipment exhibition, distribute the promotional materials, and publish an advertisement in the Book of conference materials.

SCIENTIFIC PROGRAM

The scientific program of the school-conference will consist of plenary (45 min) and keynote (25 min) lectures of leading scientists, oral (10 min) and poster presentations of young scientists.

The official language of the conference is English.

THE SCOPE OF THE SCHOOL CONFERENCE

1. Catalyst preparation

- Scientific fundamentals of catalyst preparation
- Advanced catalytic materials (micro- and mesoporous materials, hybrid materials, MOFs)
- Modern tendencies in development of catalyst preparation methods

2. Promising catalytic processes

- Processing of oil and natural gas
- Fine organic synthesis
- Green chemistry. Photocatalysis
- Energy saving and processing of renewable feedstocks. Fuel cells, electrocatalysis

3. Physical-chemical fundamentals of catalysis

- Kinetics and mechanism of catalytic reactions. Investigation of catalytic properties
- Modern research methods in catalysis. In situ and operando research
- Theoretical modeling of catalytic processes

4. Industrial implementation of catalytic processes

- Fundamentals of industrial catalyst preparation
- Development of chemical processes and reactors
- Catalyst deactivation and regeneration
- Catalytic process engineering

PUBLICATIONS

All accepted abstracts will be published in Proceedings of the school-conference.

REGISTRATION FEE

Registration categorie	Registration fee
Academic participants with report	2 000 Rub
Academic participants without report	600 Rub
Industrial participants	3 000 Rub
Thesis publication in the Book of Abstracts	1 000 Rub

SCHOOL-CONFERENCE VENUE

The School-Conference will be held online from Tomsk, the oldest Siberian educational, scientific and innovative center. The city is famous for its monuments of wooden and stone architecture of the XVIII-XX centuries. There are several theaters, the Philharmonic concert halls, plenty of museums, several art galleries and exhibition halls in Tomsk.

The main events of the school-conference will be held from the old building of the Scientific Library of Tomsk State University. The building was built in the style of neoclassicism according to the project of gifted Siberian architect A.D. Kraichkov in 1912-1914 on the territory of the University grove. Today, the halls of old building of the Scientific Library serve as conference rooms with up-to-date multimedia facilities, where various top-level events are held.

SOCIAL PROGRAM

Participants will be invited to the online excursion to the Laboratory of Catalytic Research.
